## What is Science Olympiad?

A competitive event in which a school's team of students is challenged in 23 different science-related events; these range from earth science, biology, chemistry, physics, and engineering!

## How do I join?

If you enjoy science, you've come to the right place. Here are the steps for joining:

- 1. Complete an interest form on our website
- 2. Wait for more information to be sent out about the application process through your personal email
